Candela In-Depth Description :

Candela is an absorbing play that has three stages: Guarding, Scanning and Gamble. In the first stage, the player is required to guard the 3 dots on the board. In the second stage, the player is required to scan the board dots.

The rules are designed to encourage players to be creative in the way they inspect the board for a winning pattern. During the Scanning stage, candidates are encouraged to check the region where they have a better chance of winning the game.

Candela Rules

General Rules

1. Candela is played on an 8x8 or 9x9 (tile) backlit visual board. Each tile is 11 mm. The board is made up of 2 or 3 color bands. Candela board is the same size as that of Ghoti. Therefore Candela is not a Zero Turns game.
2. Candela is a tiled board game wherein the tile comes in 2 or 3 colors. The 2 or 3 colors are assigned to the 4 dots in the 4 corners of the tile. Dots are further numbered as per the board configuration shown in figures.
3. The players start on the opposing colour of the tile (Figure 2) that contains their tile to the left and right of the respective player.
4. The players announce the first digit as per Table 3 and move their tile accordingly.
5. The remaining six digits in the tile are scanned similarly, resulting in six digits on the play board with a final digit on the ends of the board.
6. Each tile has a yellow band on it. A successful position is denoted by a yellow

band on the tile being turned face up.

7. When it is time to gamble, the players may move the tiles of their choosing to the 'waiting zone
