

For supporting our continuously growing team we are looking to hire as soon as possible a

Laboratory/Technical Assistant (m/f/d)

Quality Control, Full-Time

RECIPE is one of the leading suppliers of laboratory-medical tests for hospitals and medical doctors.

Our products are established in over 80 countries worldwide and are used, amongst others, in the diagnosis of medical conditions and the therapeutic drug monitoring.

We are offering an interesting range of tasks with attractive development opportunities in a friendly working environment.

Your tasks:

- Responsible product testing as part of product release
- Monitoring and maintenance activities for laboratory equipment
- Identification of sources of error and participation in the development of corrective actions
- Continuous development and improvement of our quality processes

Your profile:

- Completed vocational training as a chemical laboratory technician, CTA, BTA, PTA, MTA, or a Bachelor's degree in Chemistry, Biology, or Pharmacy
- Professional experience in an analytical laboratory, ideally in the field of clinical diagnostics
- Solid knowledge of instrumental analysis, especially HPLC and LC-MS/MS
- Confident handling of common IT/software applications
- Careful working style and thorough documentation
- Language skills: German (B2), English (B2)

If we have attracted your attention and you are interested in a position with a diverse range of tasks in an aspiring company, please send your application indicating your salary expectations and earliest entry date
