Desktop.. It is a Mac version that allow you to run a software in another operating system. or cracked, as many applications are not distributed with serial key (that's why you need a serial key generator). Also, the startup of. How to find and replace serial number of Parallels Desktop. how to find serial number of parallels desktop 8 for mac How to find and replace serial number of Parallels

Desktop.Two-year outcome of lumbar fusion with bone morphogenetic protein-2 (BMP-2) in the treatment of spinal stenosis. Cervical and lumbar degenerative diseases can cause myelopathy and neurological symptoms, often accompanied by severe pain, as a result of compression on the nerve roots or spinal cord. Cervical decompression and foraminal decompression are not always effective in treating symptomatic spinal stenosis, and lumbar fusion is currently the mainstay of surgical treatment in these patients. In recent years, the use of bone morphogenetic protein-2 (BMP-2) has been demonstrated to effectively promote bone growth and stimulate new bone formation, thereby promoting the fusion process. The purpose of the present study was to investigate the safety and effectiveness of lumbar fusion using BMP-2 in the treatment of severe degenerative spinal stenosis.

A total of 34 patients who were diagnosed as having degenerative lumbar spinal stenosis and who had persistent or recurrent symptoms after conservative treatment were included in this prospective study. All patients underwent lumbar decompression and intervertebral fusion using BMP-2. They were followed up for an average of 24 months. No cases of BMP-2-related complications were noted.

The fusion rate after 2 years was 91.8% (31/34). The Visual Analog Scale score improved significantly from  $6.5 \pm 1.0$  points preoperatively to  $4.6 \pm 1.2$  points after surgery, and the Oswestry Disability Index score improved significantly from  $66.1 \pm 6.0\%$  before surgery to  $27.2 \pm 4.8\%$  after
