FIG. 13 shows a conventional device. A board 14 is formed with a longitudinal hole 11 and a circular recess 12, and is inserted by a pin 43 of a cover member 42 having a longitudinal hole 41 and a cylindrical portion 41A into the recess 12. Reference numeral 44 denotes an electronic part provided with terminals 45, 46 and the like on one surface thereof, while reference numeral 47 denotes a resin molding for sealing the electronic part 44. As shown in FIG. 14, the terminals 45 and 46 are provided with rectangular contact portions 48 each having a tab portion 48B which is rotatable around the longitudinal axis of the pin 43. The pin 43 is rotatable only in the recess 12. The cover member 42 is made of resin and is molded while the terminal 45 and 46 are inserted into the pin 43. Therefore, when the cover member 42 is molded, the tab portions 48B of the terminals 45 and 46 protrude from the pin 43. Therefore, when the cover member 42 is pressed to the cover member 43, the tab portions 48B are deflected in a bending direction. As a result, the tab portions 48B and the pin 43 tend to be separated from each other. When c9d1549cdd

**What's new in Torque Drift - AdamLZ R32 Driver Car:**

Once upon a time, Doctor Karabas was a good man. An honest man. A scientific man. A man willing to help the poor - who he could - and the forgotten - who he must. But Karabas grew weary of doing what he believed was right, so he walked away, to somewhere else. Now, the Doctor has lost all compassion as he has devolved into a twisted, demented, survival of the fittest, dystopian nightmare. A world where children still die in needless famines, where the aged have been turned into slave labor, where the very air that we breathe threatens to kill us outright... Doctor Karabas's house has been taken over by a secret society of scientists. Their mission is to find a means of ending the world, all for their own self-aggrandizing, perverted ends. In the end, she slithers out of our world through a tear in reality that leads to another world...one not unlike the story that her father used to tell her about the legendary Chthonians, who tamed the stars and hoped to rule them.
