To test the effect of a 1-day training workshop on preventive counseling practices among community health workers (CHWs) of Thừa Thiên-Huế province, Vietnam. A 1-day workshop (intervention) was provided on motivational interviewing to improve the practice of HIV counseling. One hundred and fifty-one CHWs in the intervention group participated in the workshop, compared to 241 CHWs in the control group. The workshop was evaluated with a post-training knowledge test, a self-rated learning assessment and a performance rating assessment. At 3 months and 6 months post-training, both groups received an immediate re-evaluation of their counseling practices. The intervention group performed significantly better on the knowledge test than the control group (P = 0.01). CHWs in the intervention group were more confident in their skills and in their ability to assist patients with behavioral change. Their self-rated learning ability increased significantly at both 3 months and 6 months post-training (P Preemptive transplantation in heart-kidney syndrome in the first 2 days of life. Cullimore, County Atty., Augusta, for plaintiff. Milton R. Stephens, Jr., Augusta, for defendant. Before McKUSICK, C. J., and POMEROY, WERNICK, ARCHIBALD and GODFREY, JJ. ARCHIBALD, Justice. Defendant was convicted by a jury of the murder of his wife in Kennebec County. 17 M.R.S.A. § 2551(1)(A)(B). He seeks a new trial on the grounds that the trial court erred in denying his motion for a judgment of acquittal and that the State's expert psychiatrist was permitted to give opinions regarding defendant's state of mind during the time of the alleged crime. I. The evidence establishes that defendant killed his wife by means of a firearm on October 13, 1975. He claims that it was error for the trial court to deny his motion for a judgment of acquittal because there was no evidence that the accused was in a state of anger at the time of the commission of the
