About Us We are a small game studio based in Spain, with a team of 10 developers. Our games are developed in Unity, our main tool of development. ABOUT THE GAME Ancient Cities will be available in different languages: English, Italian, Spanish, German, Russian and French. Features: * Fight off aggressive animals. * Discover new resources and technologies. * Use different resources to build more than 40 different buildings. * Manage your people and animals, develop your city. * Build a city that will last for generations. * Intuitive user interface. A GAME WHERE YOU MUST MAKE THE BEST CHOICES THROUGH EONS, GENERATIONS AND CITIES You are the wise king of a civilization that must survive through a human civilization through eras. Starting in the Mesolithic era, you will have to guide your people through generations, discovering and improving technologies, managing resources and population, facing threats from raiders and Mother Nature herself. And, ultimately, building the most fantastic city of antiquity through the ages in a fully simulated world and ecosystem. You will be impressed by the amount of depth and gameplay in Ancient Cities. The game offers many hours of gameplay and will take you many years to understand and master all the elements and mechanics. Many world events are driven by the economy, the most important one is to maintain a balanced population, when population is too low you will see the birth rate increase and the population will grow. The smaller the population, the less population pressure there is and the birth rate will go down. If the population is too
